
Thermacore[®] COLLECTION

Premium insulated garage doors deliver maximum thermal efficiency and design flexibility.

The Genuine. The Original.

The Thermacore® Collection keeps design in mind and adds comfort to your home by providing protection from air infiltration and temperature changes.

Built Better from the Inside Out

Door construction

Thermacore® Collection steel garage doors feature premium insulation construction and design which provides maximum thermal efficiency and reduced air infiltration for your garage space. This durable line of garage doors gives you many years of reliable operation while providing comfort and beauty to your home, even in extreme climates.

Thermacore® construction

Provides a continuous layer of foamed-in-place, CFC-free polyurethane insulation sandwiched between two layers of corrosion-resistant steel, for maximum thermal efficiency.

Durable finish

Interior-side hot-dipped galvanized steel backing, with two coats of baked-on polyester paint, provides strength and a finished, clean appearance.

In-between section thermal seals

With an air infiltration rating of up to 0.08 cfm, seals provide superior resistance to the elements.

Multiple surface options

Embossed wood grain adds beauty, sophistication and durability.

Microgroove waved pattern creates a striking light effect.

Smooth, non-textured surface gives a modern look.

Pebble grain embossment creates an appealing pattern texture.

Bulb-type bottom weatherseal

Guards against wind and rain while providing a cushion when closing.

Wind Load options

Models 5740 and 5760 are FBC approved and will provide added protection to your home during high wind events, including hurricane-force winds.

Model 5740 (198) 7' high, Long Panel, White finish, Stockbridge 2 4-Lite windows
